Selection of package, general terms and conditions

Within no more than 10 working days after authorization from the acceptor, the package which is the most advantageous for the merchant will be selected. In order to select this, the Issuer is entitled to make a test purchase at any time. Fees for accepting bank cards and Barion balances are set at each Acceptor point.

Fees for accepting bank cards apply to payments made with Visa and Mastercard cards issued to individuals residing within the territory of the European Union. If the proportion of the amount of payments made with other types of cards exceeds 2%, the Issuer is entitled to set a

Top up with a bank card can only be made with a bank card issued in Hungary. The issuer has the right to make bank card top up conditional on a verification process determined by it. Insofar as the average size of the shopping cart remains below HUF 5,000 for an extended period of time, the Issuer has the right to require a higher, individual fee for accepting the bank card.

The discounted "Smart" and "Genius" packages apply to the activities of small businesses, thus they are not applicable to, in particular but not exclusively, to charitable activities, business based on the MLM business model or non-retail business.

Definition of acceptor services:

Base fee for all transactions The base fee is the basic fee for the use of Barion Smart Gateway, and is payable for every transaction (bank card and Barion balance). In the case of a marketplace model, the Facilitator shall pay this fee.

Turnover-based discount: Turnover-based discounts are applied in the calendar month following the month in which the requisite monthly turnover is reached. A drop in turnover may result in a revocation of the discount.

Conditions for benefiting from discounts are expressed in forints, but these also apply to accepting foreign currencies, by calculating these amounts in forints. Additional discounts are available in the case of exceptionally high turnover. Please ask for one of our customized offers!

Definitions of extra and community payment services

Reservation and repayment In the case of reservation and repayment, the amount paid shall be credited to the Barion wallet of the beneficiary, but cannot be used until the Facilitator has finalized the transaction. Finalization can occur with either the original or reduced amount, or even with HUF 0.

Recurring payment In the case of recurring payment, the Customer, in making the first successful payment, authorizes the Merchant to repeat the payment with the frequency and in the amount specified. This can be used for performing down payments, one-click payments or automatic payments.

Recurring payments require a special authorization, for which purpose the Issuer may, at its own discretion, the Merchant requesting such.

Payments to a third party The amount paid is credited to the Barion wallet of a user specified by the user initiating the transaction. Applicable fees must be paid by the user initiating the transaction.

Payments to several parties The amount paid is credited to the Barion wallet of several users specified by the user initiating the transaction.

Contributor fee At the discretion of the user initiating the transaction, a contributor fee may be deducted from the beneficiary of the purchase. The beneficiary of the fee can be the person initiating the payment or other Barion users.

In the case of any extra services, an additional fee will be charged for the extra service group. If several services are used from a single extra service group, the fee will only be charged once.

Definition of conditions

Placement of Barion information elements Placement of Barion information and corporate image elements in a manner chosen by the Issuer. The Issuer shall publish a detailed description of the placement of these elements.

viding detailed shopping cart contents at time of payment. This shall be deemed to have been performed if the Acceptor provides a detailed description of the contents of the shopping cart, that is, the specific denomination of the products purchased.

Exclusive electronic payment Deemed to have been performed if Barion is the only electronic payment method available. Payments by customers via bank transfer or upon delivery are not considered to be electronic payment.

Compulsory registration with Barion at time of payment In the course of the payment process, customers must register their Barion wallets with a real, verified email address. Payment may only be completed after successful registration.

In the case of the failure to comply with any condition of a previously selected package, the Issuer is entitled to unilaterally select another package or to specify a customized fee in connection with accepting bank cards and Barion balances.

If you would like to derogate from these conditions, ask our consultants about a customized Mastermind package!
